## INTRODUCTION

The author will explain about the problem the existence of God based on when the angels want to meet God takes one day, the measure of which fifty thousand years if calculated based on human calculation. Before, the author writes more in this issue, first author of seeking forgiveness from God.

Attempt to elaborate on the existence of God is taken from the verses:

1. *"The angels and Gabriel up (facing) to God in a day the measure of which fifty thousand years." (Al Ma'aarij: 70: 4)*
2. *"Verily your Lord is Allah Who created the heavens and the earth in six Days, then He is seated on the Throne to organize everything..."(Yunus: 10: 3)*
3. *"And the angels are in the corners of the sky. And on that day eight angels carrying the Throne of thy Lord above their heads. "(Al Haaqqah: 69:17)*
4. *" (Angels) who bear the Throne and the angels that surround the Throne praise their Lord and believe in Him and ask forgiveness for those who believe..."(Al-Mu'min: 40: 7)*

In the existence of God based on the angels when facing God, the angels uphold Throne of God and when the angels surrounding the Throne.

## HYPOTHESIS

The author proposes the hypothesis, without the help of M particle, if human want to meet God it took fifty thousand years.

## ANGELS MEET GOD AND BEAR THE THRONE OF GOD

*"...then He is seated on the Throne to organize everything..."(Yunus: 10: 3)*  
*"... And on that day eight angels carrying the Throne of thy Lord above their heads" (Al Haaqqah: 69:17)*  
*"(Angels) who bear the Throne and the angels that surround the Throne praise their Lord..."(Al-Mu'min: 40: 7)*

Let's open up what is behind the verse Yunus: 10: 3 above. Here we get an idea that God is seated on the Throne. Why does God need Throne? Because, from the Throne, God can meet with angels, give orders to the angel to be delivered to humans and other living organisms. God does not directly give orders to humans and other living organisms, but through angels. Except when God gave the command to Moses, where God spoke directly to Moses.

In the universe of angels, God can touch and talk directly with the angels. The angels are creatures of God who never fight and argue. All God's direct command execution. God is always above the Throne and the angels carry the Throne above their heads, gave glory to God.

## ANGELS NEED TIME TO MEET GOD ONE DAY, HUMAN NEED FIFTY THOUSAND YEARS

*"The angels and Gabriel up (facing) to God in a day the measure of which fifty thousand years" (Al Ma'aarij: 70: 4)*

Furthermore, if we explore what's behind the curtain verses Ma'aarij: 70: 4 above, it opens that when the angels wanted to meet God necessitates a day. But if calculated with human calculation is equal to fifty thousand years. This means that when the angels fly reaches 5,474,959,764,225 kilometers per second. While human speed based on the speed of light only reaches 299,792.46 kilometers per second. Where 1 sec according to the calculations of angels is, equal to 18,262,500 seconds in human calculations.

In the opinion of the author of an angel can reach speeds 18,262,500 times the speed of light is caused by the interaction between an angel with a particle the author named M particle or M boson. M particle can make the transformation of energy to reach speeds of up to 5, 474, 959, 764, 225 kilometers per second. So when the angel will fly by using the wings must first interact with M particles. Which according to the author of this M particle is around us and in the universe, but until this moment cannot be discovered by man-made techniques. Attempt to find the M particle ongoing today. The author is also called M particles with the name dark matter.

According to the author, if human being wants to see God as an angel can directly meet God, the first, human being should be able to find M particles. Without the help of This M particles, humans would not be able to directly meet with God as the angels. Because of This M particles is required by the angels to serve as a source of energy, the author can assume that This M particles exist around the Middle East, especially around Jerusalem.

Now the problem is that humans until now have not had a tool that could be used to find This M particles.

## CONCLUSION

Based on the description above we can conclude that God is seated on the Throne. Why does God need Throne? Because, from the Throne, God can meet with angels, give orders to the angel to be delivered to humans and other living organisms. God does not directly give orders to humans and other living organisms, but through angels. Except when God gave the command to Moses, where God spoke directly to Moses. In the universe of angels, God can touch and talk directly with the angels. The angels are creatures of God who never fight and argue. All God's direct command execution. God is always above the Throne and the angels carry the Throne above their heads, gave glory to God.

When the angels wanted to meet God necessitates a day. But if calculated with human calculation is equal to fifty thousand years. This means that when the angels fly reaches 5,474,959,764,225 kilometers per second. While human speed based on the speed of light only reaches 299,792.46 kilometers per second. Where 1 sec according to the calculations of angels is, equal to 18,262,500 seconds in human calculations.

In the opinion of the author of an angel can reach speeds 18,262,500 times the speed of light is caused by the interaction between an angel with a particle the author named M particle or

M boson. M particle can make the transformation of energy to reach speeds of up to 5, 474, 959, 764, 225 kilometers per second. So when the angel will fly by using the wings must first interact with M particles. Which according to the author of this M particle is around us and in the universe, but until this moment cannot be discovered by man-made techniques. Attempt to find the M particle ongoing today. The author is also called M particles with the name dark matter.

According to the author, if human being wants to see God as an angel can directly meet God, the first, human being should be able to find M particles. Without the help of This M particles, humans would not be able to directly meet with God as the angels. Because of This M particles is required by the angels to serve as a source of energy, the author can assume that This M particles exist around the Middle East, especially around Jerusalem.
